Chapter 1: Preamble

The “Greenville Gun Club” was incorporated in 1947 and is located on approximately forty-six (46) acres in the community of Conestee, South Carolina. The Greenville Gun Club is a non-profit organization operated for the practice and recreation of the members and their guests.

This document provides the “Membership Range Rules” for all club facilities including for each of the major discipline areas - shotgun, pistol and rifle ranges.

Members and guests should be proficient with the shooting discipline and firearm involved, including the frequently used commands and procedures used in that discipline.

There is no hunting or shooting of any wildlife.

Chapter 2: Organization

As stated in Article V of the GGC Bylaws, there are designated Officers and Directors.

GGC has four officers that comprise the Executive Committee:

- President
- Vice President
- Secretary
- Treasurer

GGC has eight directors and represent their respective disciplines:

- Director of Skeet
- Director of 5 Stand
- Director of Trap
- Director of Pistol 1
- Director of Pistol 2
- Director of Rifle 1
- Director of Rifle 2
- Director of Safety

The Elections Committee is the only other committee designated by the bylaws.

The President may form other committees for specific purposes and specify a Chair during Scheduled Board of Director meetings.

Chapter 3: Range Operations

1. **General.** Live fire conducted at the Greenville Gun Club is designed to provide members and guests a facility where they can enjoy and become proficient with privately owned or obtained firearms.
2. **Facilities for Use.** The Greenville Gun Club is a COLD RANGE. No firearm shall be loaded until you are ready to shoot or the command “load” has been given. Live fire shooting is normally limited to the following ranges and equipment.
 - a. Shotgun ranges – Shotguns only may be used. Only lead shot with a maximum shot sized of 7 ½ and a maximum powder load of 3 ¼ drams equivalent may be used. No slugs, sabot, buckshot, turkey loads and magnum loads may be used.
 - b. Pistol range –All targets shall be placed immediately in front of the berms so that bullets will impact the berm. 50 foot and 25 yard area. All pistols and rim fire rifles may be used. No center fired rifles, shotguns, full automatic firearms or devices that simulate full automatics firearms are allowed. 50 yard area. All pistols, rim fire and center fire rifles except 50 BMG may be used. No shotguns, full automatic firearms are allowed.
 - c. Rifle range – All rifles except 50 BMG may be fired. All targets will be placed immediately in front of the berms at the 50, 100, 200 and 300-yard ranges only.
 - d. Practice bays – All use of these areas is restricted. Permission to use Practice Bays is provided by a Director of Pistol or Vice-President and is extended to those members who request access and are found qualified.
3. **Hours of Operation** – The Greenville Gun Club can be utilized every day of the year except Easter Sunday. Other days may be closed at the discretion of the Board of Directors; members are encouraged to check the online calendar for updates. Live firing on the rifle and pistol ranges shall not start prior to 9:00 A.M., and will cease by the posted sunset times. Trap and skeet fields are open on Wednesday, Saturday and Sunday; see the online calendar page for specific start and end times.

Sanctioned shoots may operate at different times at the discretion of the Board of Directors.
4. **Membership Definitions** - As stated in the Bylaws, there are two types of Membership – Active and Emeritus; each having access to the ranges when open and a vote in Club business. Active Members pay annual dues; Emeritus Members do not pay annual dues. Emeritus Members are reserved for those Active Members who are approved by the Board of Directors after achieving 20 years of continuous membership and who have attained 65 years of age.

Primary Member: Each type of Membership has a Primary Member and this designation is simply the person whose name appeared first on the new membership application form. This person had to have completed all parts of the application process for membership to have been approved by the Board of Directors. The Primary Member is the person to whom membership credentials are issued (laminated Member Badge with membership number and Gate Access Card).

Alternate Member: Each type of Membership may have one Alternate Member. This designation is simply the person whose name appeared second on the new membership application form or the person who requested Alternate Member status after initial membership approval.

- To be considered an Alternate Member, this person must be the spouse, fiancé, or live-in companion of the Primary Member.
- To be approved as an Alternate Member, this person must furnish an appropriate background check for examination by the Board of Directors, attend a Safety Orientation Class, pass the New Member Test, and sign all of the same paperwork as is required for the Primary Member.
- This person will receive credentials independent of the Primary Member; the Member Badge ID number will have an “A” appended to designate Alternate.
- Alternate Memberships are not required unless a spouse, fiancé, or live-in companion intends to use the range *independently* from the Primary Member.
- Any Alternate Membership terminates immediately upon the termination of the relationship of the Alternate Member with the Primary Member.

Note: A spouse, fiancé, or live-in companion who have not registered as an Alternate Member is considered uncredentialed and must be accompanied at all times by the Primary Member while using Club facilities.

Family Unit: For the purposes of these Range Rules, the term **Family Unit** shall have the following meaning – Spouse, fiancé, live-in companion, children under the age of 21 and grandchildren under the age of 21.

Credentialed Members: All Primary Members and Alternate Members are considered Credentialed Members.

5. Credentialed Member Privileges - All Credentialed Members may use the Club when open. Open display of the laminated Member Badge is required. Use of the Gate Access Card is necessary to open the gates.

Each Credentialed Member may bring up to **4** shooting individuals from the Family Unit or other guests in any single trip to the Club.

Credentialed Members may bring individuals from the Family Unit an unlimited number of times per year; and, those individuals are not required to sign the waiver found in each range area.

A Credentialed Member may bring a guest (non-Family Unit) no more than **3** times (cumulatively for the guest) per year. This means a guest may attend the Club a TOTAL of three (3) times in any given year; NOT three (3) times for each Credentialed Member inviting the guest. This count excludes Club sanctioned tournaments.

6. Credentialed Member Responsibilities - Credentialed Members, when bringing guests to the Club from the Family Unit or other guests, have the following responsibilities:

- All uncredentialed attendees are the direct responsibility of the Credentialed Member.
- Credentialed Member is required to maintain “sight and sound” supervision for those individuals. This means that the Credentialed Member shall be within sight and sound of all Family Unit individuals who are not credentialed and all other guests while they are on Club property.
- The Credentialed Member shall ensure that all Family Unit individuals and guests thoroughly understand the safe handling of firearms and thoroughly understand the Greenville Gun Club Range Safety Rules.
- UNDER NO CIRCUMSTANCES is it acceptable to “drop off” or leave an uncredentialed family member, a child or a guest at one part of the club or range, while the supervising member shoots at another part of the club or range.
- All non-Family Unit guests must sign the waiver found in each range area before shooting begins.

The Credentialed Member, whether Primary or Alternate, is DIRECTLY responsible for the actions taken of any uncredentialed Family Unit individual or other guest. If there is a safety violation, or if there is any violation of any Club rules by any uncredentialed person, then the Credentialed Member responsible for their supervision shall be subject to appropriate disciplinary action as is determined by the Board of Directors.

Chapter 4: Range Rules – All Facilities

These rules have been adopted to ensure the health and safety of those individuals who use or frequent this facility.

The use of alcohol before or during the handling of firearms is STRICTLY PROHIBITED. All members and guests shall insure their firearms are secured in their vehicle prior to consumption of alcohol.

Eye and ear protection **MUST** be utilized at all times when firing or in the **PROXIMITY** of others firing.

COLD Range: All firing ranges on the property of the Greenville Gun Club are “cold” ranges. All firearms will be unloaded at all times upon entering the grounds and until leaving other than while on the firing line and under the supervision of a Safety Officer if applicable. All firearms transported to and from vehicles to the range must be in **SAFE (OPEN) Condition** or encased if applicable. No loaded firearms are allowed in the clubhouse or on the clubhouse porch.

Concealed Weapon Permit Rules: Any CWP holder must unload and put their firearm in a **SAFE** condition prior to leaving their vehicle when on the facility property.

Law Enforcement Rules: All full time employed, academy certified, Law Enforcement Officers exhibiting a badge or wearing apparel indicating their status are permitted to carry loaded firearms on the property if they are at the club on **official business**. If the officer is going to participate in any of the disciplines, it is expected that the officer will heed Club safety rules and remove any loaded firearm from their person.

Prohibited Firearms: The use of pyrotechnics, tracer bullets, tracer shotshells, fully automatic firearms, devices that simulate automatic fire, 50 Caliber BMG center fire, grenade launching devices and cannons are forbidden on any part of the range. Any firearm <18 inches shooting with shot shells (including slugs) are not allowed on GGC property (e.g., the “Judge”, “Contender”, etc.). No shot shells of any gauge or pistol caliber (e.g., snake shot) are allowed on the pistol or rifle ranges; with exception to specific board approved tournaments. Specific rules for the various ranges are listed separately.

Firearm Handling Safety Rules

- a. ALWAYS KEEP THE GUN POINTED IN A SAFE DIRECTION**
- b. ALWAYS KEEP YOUR FINGER OFF THE TRIGGER UNTIL READY TO SHOOT**, and outside the trigger guard, until ready to fire or until the command “Commence Firing” has been given.
- c. ALWAYS KEEP THE ACTION OPEN AND THE FIREARM UNLOADED UNTIL READY TO USE.** On a firing range this means the shooters are in position on the firing line and the range has been cleared for live firing.
- d. KNOW YOUR TARGET AND WHAT IS BEYOND.** When on shooting ranges, be mindful also of adjacent areas and act accordingly.

- e. Be sure the gun is safe to operate.
- f. Know how to use the firearm safely.
- g. Use only the correct ammunition for your firearm. When at a shooting range with more than one firearm, use one at a time and when finished, store that firearm and its ammunition before using the next one.
- h. Store firearms so they are not accessible to unauthorized persons. There may be federal, state or local statutes, ordinances and/or regulations regulating the manner of firearms storage, including some that may make failure to properly store firearms a criminal offence. Besides these regulatory requirements and/or penal prohibitions, such activities may, pursuant to state or local law, give a party a cause of action to sue you for injuries or damages caused by a third party that obtained access to one of your firearms.
- i. Be aware that certain types of guns and many shooting activities require additional safety precautions.

Chapter 5: PISTOL Range Safety Rules

Credentialed Members and guests will adhere to the Range Safety Rules and those of their specific discipline. If there is any conflict between Greenville Gun Club Range Safety Rules and the sanctioned event association rules, the more conservative rule shall apply. Associations may be NRA, ATA, NSSA, IDPA, CPSL, etc.

1. **The use of alcohol before or during the handling of firearms is STRICTLY PROHIBITED. All members and guests shall insure their firearms are secured in their vehicle prior to consumption of alcohol.**
2. Targets are not to be placed near the edges of target frames. **DO NOT SHOOT TARGET FRAMES, BAFFLES, OR SUPPORT BEAMS.** Targets are NOT allowed on or near the tops or sides of berms.
3. All targets must be placed immediately in front of the appropriate distance berm to insure bullets do not bounce or ricochet. Targets shall not be hung from the overhead baffle.
4. Eye and ear protection **MUST** be worn at all times when firing or in the proximity of others firing.
5. A minimum distance of 11 yards must be maintained from metallic targets (pepper poppers and plates). These targets are only permitted during sanctioned action pistol shooting matches or in the practice bays (USPSA/IPSC/IDPA/CPSL, ETC.) There will be no “hammering”, multiple hits, of the metallic targets.
6. No metal Targets or metal Target Frames are allowed on the Pistol Range.
7. All trash must be picked up and disposed of properly.
 - a. Shell casing (brass) may be placed in the proper containers on the pistol and rifle ranges.
 - b. Sweep up rimfire cases and police the range after use.
 - c. Targets should be removed from frames and placed in the trash barrels provided.
8. Observe any additional posted rules and warnings at the range.
9. No one is allowed downrange unless and until all firearms are in Safe Condition and are placed on benches or tables. No handling of firearms is allowed when anyone is down range.
10. **HOLSTERS:** Firearm in strong side holster is permitted only when Pistol range is hot and when on the firing line. Only strong side holsters will be allowed. No cross draws, shoulder or small of the back holsters. Holstered handguns are not allowed on the rifle range or anywhere else on the property. *<Exception: Holsters can be used during sanctioned pistol shoots at the discretion of the match director.>*
11. “SAFE CONDITION” is defined as follows:
 - a. Revolvers – Cylinders open and no ammunition in cylinder chambers.
 - b. Pistols - Slide locked to the rear and open, chamber empty, magazine removed, safety engaged if applicable.
 - c. Other – Action open, chamber empty, safety engaged.

12. Shout “CEASE FIRE” IF YOU WITNESS A SAFETY VIOLATION. All members are responsible for safety at all times. Contact the Director of that discipline or the Safety Director.
13. Shooting on all the pistol range is limited to rifles, muzzle loaders and handguns. **NO SHOTGUNS ALLOWED ON THE PISTOL RANGE EXCEPT FOR SANCTIONED EVENTS.** No shot shells of any gauge or pistol caliber (e.g., snake shot) are allowed on the pistol or rifle ranges; with exception to specific board approved tournaments.
14. Shooting at less than 50 feet may be done at the outdoor 50-foot pistol range berm if no one is shooting at a greater distance. Targets shall be placed immediately in front of the berm so that the bullets will strike the berm and not bounce or ricochet.
15. Pistol Draw and Fire: On the pistol range, there are openings between the tables specifically to permit the shooter to draw from an allowed holster (see #10) and fire at a target placed in front of the berm. Additionally, a shooter may be forward of the front tables **ONLY** if no one else is using the range or if everyone at the range shoots from the same distance (no one can be shooting further back).
16. Any pistol not properly sighted-in must be sighted-in at the 50 foot or 50 yard line on the pistol range. Bore sight the gun before firing if possible.
17. If more than one shooter is on range, safety and courtesy among the shooters must be maintained. If a shooter needs to go down range to change targets or for other needs, request that the “range be made safe”. All firearms must be made empty and in **SAFE CONDITION** and placed on the benches or tables. No handling of firearms while anyone is down range.

When you are sure no one is down range and the command “Line Is Hot” has been given you may handle the firearm. The command “Going Hot” will be given when you are ready to fire. This will give other shooters time to put on eye and ear protection.

18. All firearms transported to and from vehicles to the range must be in **SAFE (OPEN) Condition** or encased if applicable. All firearms not encased shall be transported only while the range is **HOT**. **Firearms shall be cased or uncased on the FRONT BENCH only and ONLY when the range is HOT.**
19. Paper, non-metallic and non-glass targets are allowed. If wood or plastic fragmented targets are used the fragments must be picked up and removed from the area by the conclusion of the range session. No target shall be placed at the edges of the target stands or near the top, bottom or sides of the berms. All bullets shall be fired so as to impact the center of the berm. Remove paper targets from the target stands and deposit them in the trash barrels provided when finished. All phone book type of targets shall be removed to the dumpster near the exit road.
20. The Practice Bays are reserved for Greenville Gun Club members who are involved with action pistol shooting and have become “Safety Officers” with a Greenville Gun Club recognized action pistol organization. These Safety Officers must also be approved by the “Director of Pistol” to gain admission to the bays.

Chapter 6: RIFLE Range Safety Rules

Credentialed Members and guests will adhere to the Range Safety Rules and those of their specific discipline. If there is any conflict between Greenville Gun Club Range Safety Rules and the sanctioned event association rules, the more conservative rule shall apply. Associations may be NRA, ATA, NSSA, IDPA, CPSL, etc.

1. **The use of alcohol before or during the handling of firearms is STRICTLY PROHIBITED. All members and guests shall insure their firearms are secured in their vehicle prior to consumption of alcohol.**
2. Targets are not to be placed near the edges of target frames. **DO NOT SHOOT TARGET FRAMES.** Targets are NOT allowed on or near the tops or sides of berms.
3. All targets must be placed immediately in front of the appropriate distance berm to insure bullets do not bounce or ricochet.
4. Eye and ear protection **MUST** be worn at all times when firing or in the proximity of others firing.
5. No metal Targets or metal Target Frames are allowed on the GGC Rifle Range; except for Club-supplied steel hanging targets on the 300-yard berm. The two GGC-supplied targets are the only steel targets allowed on the rifle range. These targets cannot be shot closer than 300 yards. *(modified March 2017)*
6. All trash must be picked up and disposed of properly.
 - a. Shell casing (brass) may be placed in the proper containers on the rifle range.
 - b. Sweep up rimfire cases and police the range after use.
 - c. Targets should be removed from frames and placed in the trash barrels provided.
7. Observe any additional posted rules and warnings at the range.
8. No one is allowed downrange unless and until all firearms are in Safe Condition and are placed on benches or tables. No handling of firearms is allowed when anyone is down range.
9. "SAFE CONDITION" is defined as follows:
 - a. Bolt Actions – Bolt open or out, chamber empty, magazine removed, tube magazines empty, safety engaged.
 - b. Pump and Semi-Auto – Action open, chamber empty, magazine removed, tube magazine empty, safety engaged.
 - c. Lever Action – Action open, chamber empty, magazine removed; magazine tube empty, safety engaged.
10. Shout "CEASE FIRE" IF YOU WITNESS A SAFETY VIOLATION. All members are responsible for safety at all times. Contact the Director of that discipline or the Safety Director.
11. **NO SHOTGUNS ALLOWED RIFLE RANGES EXCEPT FOR SANCTIONED EVENTS or if member is using a shotgun to fire sabot/slugs. The use of this type of shotgun ammunition is**

only permitted on the rifle range and only out to 100 yards. No shot shells of any gauge or pistol caliber (e.g., snake shot) are allowed on the pistol or rifle ranges; with exception to specific board approved tournaments.

12. Any rifle not properly sighted-in must be sighted-in at the 50-yard line at the pistol or rifle range. Bore sight the gun before firing if possible
13. No targets on the rifle range shall be placed closer than the 50-yard line. All targets must be placed at the 50, 100, 200 or 300 yard line where frames are provided.
14. If more than one shooter is on range, safety and courtesy among the shooters must be maintained. If a shooter needs to go down range to change targets or for other needs, request that the “range be made safe”. All firearms must be made empty and in SAFE CONDITION and placed on the benches or tables. No handling of firearms while anyone is down range.

When you are sure no one is down range and the command “Line Is Hot” has been given you may handle the firearm. The command “Going Hot” will be given when you are ready to fire. This will give other shooters time to put on eye and ear protection.

15. All firearms transported to and from vehicles to the range must be in **SAFE (OPEN) Condition** or encased if applicable. All firearms not encased shall be transported only while the range is **HOT**. **Firearms shall be cased or uncased on the FRONT BENCH only and ONLY when the range is HOT.**
16. Paper, non-metallic and non-glass targets are allowed. If wood or plastic fragmented targets are used, the fragments must be picked up and removed from the area by the conclusion of the range session. No target shall be placed at the edges of the target stands or near the top, bottom or sides of the berms. All bullets shall be fired so as to impact the center of the berm. Remove paper targets from the target stands and deposit them in the trash barrels provided when finished. All phone book type of targets shall be removed to the dumpster near the exit road.

Chapter 7: SKEET, TRAP & 5-STAND Range Safety Rules

Credentialed Members and guests will adhere to the General Range Safety Rules and those of their specific discipline. If there is any conflict between the Gun Club Range Safety Rules and the sanctioned event association rules, the more conservative rules shall apply. Associations may be NRA, ATA, NSSA, IDPA, CPSL, etc.

- 1. The use of alcohol before or during the handling of firearms is STRICTLY PROHIBITED. All members and guests shall insure their firearms are secured in their vehicle prior to consumption of alcohol.**
2. Eye and ear protection MUST be utilized at all times when firing or in the PROXIMITY of others firing.
3. Lead shot only with a maximum size of 7 ½ is allowed and with a maximum powder load of 3 ¼ drams equivalent.
4. Do not walk or stand in front of any active trap house or skeet low house. Targets leaving these houses travel in excess of 40 mph and WILL CAUSE INJURY.
5. Pickup all hulls from the range at the completion of the round. This is the member's responsibility. Paid employees (trap boy, etc.) are not responsible for picking up empties.

NOTE: Caution is to be exercised when picking up empty shells at Skeet station 7. No one should be handling the skeet thrower control at the time shells are being picked up. Further, when picking up shells at station 7, no one should be shooting on fields on either side that would be directing fire in the direction of station 7.

6. Organized shooting events take precedence over casual shooting. Dates of organized events will be posted in advance in the clubhouse.

During organized shooting events, the non-shooting discipline is closed. For example, if skeet is having a tournament, the trap and 5-Stand facilities will be closed for the day. If trap is having a tournament, the skeet and 5-stand will be closed for the day.

7. While on skeet, trap and 5-Stand ranges, loaded firearms are permitted on the firing positions ONLY. Movement between stations on the skeet, trap and 5-Stand ranges will be conducted with all firearms in the SAFE (OPEN) CONDITION AND UNLOADED.
8. No rifles or handguns allowed on skeet, trap or 5-Stand fields.
9. Standard size clay targets thrown by machine are the only targets allowed and are included in the price of a trap/skeet round. These targets are supplied by the Club; the use of non-Club targets (purchased offsite) is strictly prohibited. Special clay pigeons of other size and color and throwing devices are used on scheduled Sporting Clays, 5 Stand and other matches or events.
10. No hand thrown targets allowed. Non-club machines are not allowed

11. All firearms transported from vehicles to range must be in SAFE (OPEN) CONDITION.
12. Any time a firearm is moved from a vehicle or passed to another individual, a visual inspection must be made to assure the firearm is in a SAFE CONDITION.
13. SAFE CONDITION is defined as follows:
 - a. Pump and Semi-Auto – Action open, chamber empty, no ammunition in magazine tube, safety engaged.
 - b. Hinged Action – (side by side, over/under, single barrel) - Action open, chamber empty, safety engaged if applicable.
 - c. Others – Action open, chamber empty, magazine removed or empty, safety engaged.
14. No shells are to be loaded into the shotgun until the shooter is actually standing on the designated skeet or trap “pad” or in the designated “cage” for 5-Stand.
15. When moving from one position to another the shotgun must be open and unloaded. And, if a trap boy must check the trap machine, each shooter on the trap line needs to unload and put their shotgun into the SAFE CONDITION.
16. The shotgun should never be charged with more than two shells. For Skeet, it is permissible to load 2 shells for single targets when the shooter is on the “pad”. For Trap, it is permissible to load only 1 shell for a single target; 2 shells for doubles. At no time, should a shooter load a magazine with more than 2 shells.
17. Special Rules concerning the handling of different types of shotguns:
 - Break Open Shotguns (Hinged Action)
 - When carrying or holding a break open shotgun on club property, it must be open at all times. It can be closed while it is placed on a designated gun rack.
 - The preferred methods for carrying a Break Open shotgun are with the butt stock over the shoulder and the barrels held by the hand and pointed toward the ground or by holding the action with the barrels pointed toward the ground. The shooter should not hold the shotgun such that the barrels are across the shoulder and pointed backward towards other shooters or where the barrels are parallel to the ground
 - Closed Action Shotguns (pump and semi-auto)
 - When carrying or holding a closed action shotgun on club property, the action must be open at all times.
 - The preferred method for carrying a Closed Action shotgun is with the action open with the barrel pointed up toward the sky or toward the ground. At no time should the barrel be pointed back over the shoulder or where the barrel is parallel to the ground.

Shotgun Pattern Board

1. Use of the shotgun pattern board is provided for the members.
2. Use of any firearm other than a shotgun is strictly prohibited.
3. The Shotgun Pattern Board may not be used when either of the upper two trap fields is in use; since ricochets and BB's displace when they impact the steel backing.
4. The use of buckshot, slugs, turkey loads, or any shot larger than 7 ½ is strictly prohibited.
5. Once the pattern board is used, the member shall use the paint provided to repaint the pattern board.

Chapter 8: Range Safety Officers

Range Safety Officers (RSO) will be identified by an orange or tan hat with the words "RANGE SAFETY OFFICER". RSOs are there to see that range rules are followed. They are also there to answer your questions and help you with any range procedures and safety. Should any problems arise, the Range Safety Officers word is FINAL.

RANGE SAFETY OFFICER REQUIREMENTS

1. Be a member of the Greenville Gun Club in good standing
2. Be approved by the Director of Safety and the President of the Greenville Gun Club and serve at their discretion.
3. Read the "Membership Range Rules" and complete the "Range Safety Officers" test with a score of 90% or better.
4. Agree to a minimum of two years of service to the Greenville Gun Club.
