

Greenville Gun Club and COVID-19 Response

Effective Aug 11, 2020

Consider these rules to supersede the Range Safety Rules.

As Greenville County and SC has seen a diminished infection rate over the last week and as the Governor continues to ease restrictions, the Executive Committee of the Board of Directors has lessened the guidelines to these:

1. **All Organized tournaments/matches are permitted; decision to have each and how it will be managed will be left to the individual Director/Match Director.** Please review the Website calendar for more information or contact the appropriate Director.
2. **TWO Guests.** Practice is open to the Member, the Members family as defined in the Range Safety Rules, and up 2 guests. Guests must sign-in on waiver and name must be easily legible.
3. **Gate Swipe** – Consistent with our current Range Safety Rules, all Members must swipe their access control card at the access control reader at the front, and, as necessary, lower gate. No PIGGYBACKING.

**If you are sick or a member of your immediate household is sick with COVID-19,
don't come to the Club.**
