

Greenville Gun Club and COVID-19 Response

Effective Aug 24, 2021

Consider these rules to supersede the Range Safety Rules.

As infection rates and hospitalizations rapidly increase in SC and Greenville County, the Board of Directors have instituted the following effective immediately.

1. **All Organized tournaments/matches are permitted; decision to have each and how it will be managed will be left to the individual Director/Match Director. However, the Board did direct that Squad sizes should be kept low to encourage social distancing.** Please review the Website calendar for more information or contact the appropriate Director.
2. **NO Guests.** Practice is open to the Member, the Members family as defined in the Range Safety Rules, and NO guests.
3. **Gate Swipe** – Consistent with our current Range Safety Rules, all Members must swipe their FOB across the access control reader at the front, and, as necessary, lower gate. As well as upon exit. FOBs to all members should sent in about two weeks.
4. **Social Distancing** – The Board encourages social distancing as guided by the CDC. We are not mandating masks at this time, wear them as you see fit.
5. This bulletin will be updated as conditions change. Updates to this banner can be read by clicking the link on our homepage banner.

**If you are sick or a member of your immediate household is sick with COVID-19,
don't come to the Club until you (or they) have had a negative test result.**
